species	14
variation	15

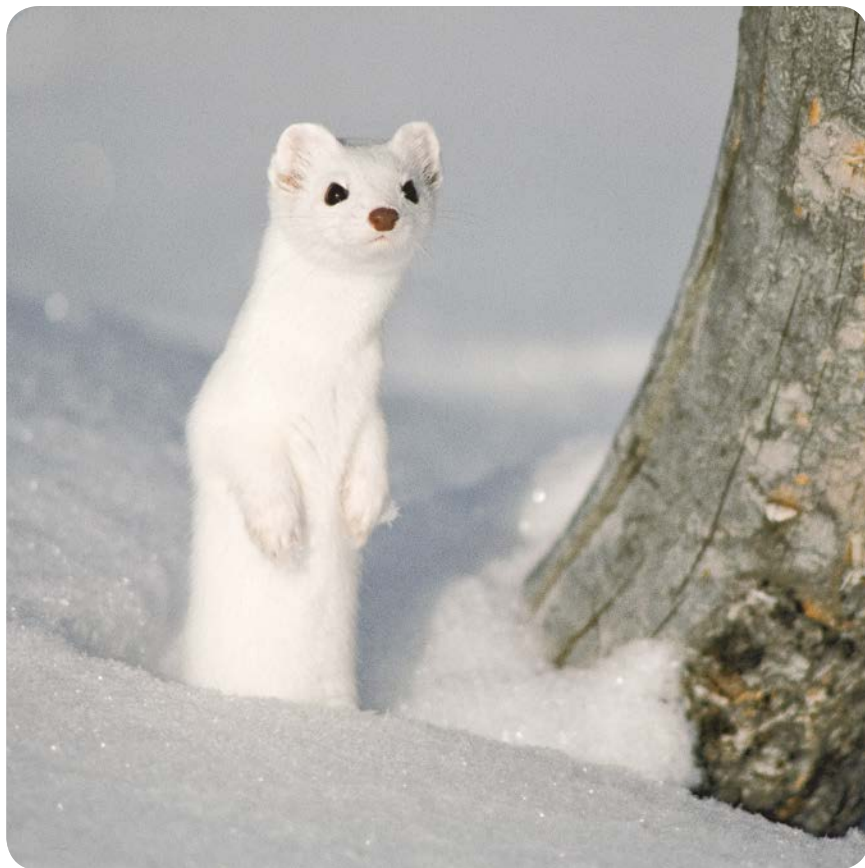

Lesson 5

individual	16
reject	17
riparian	18

Lesson 1

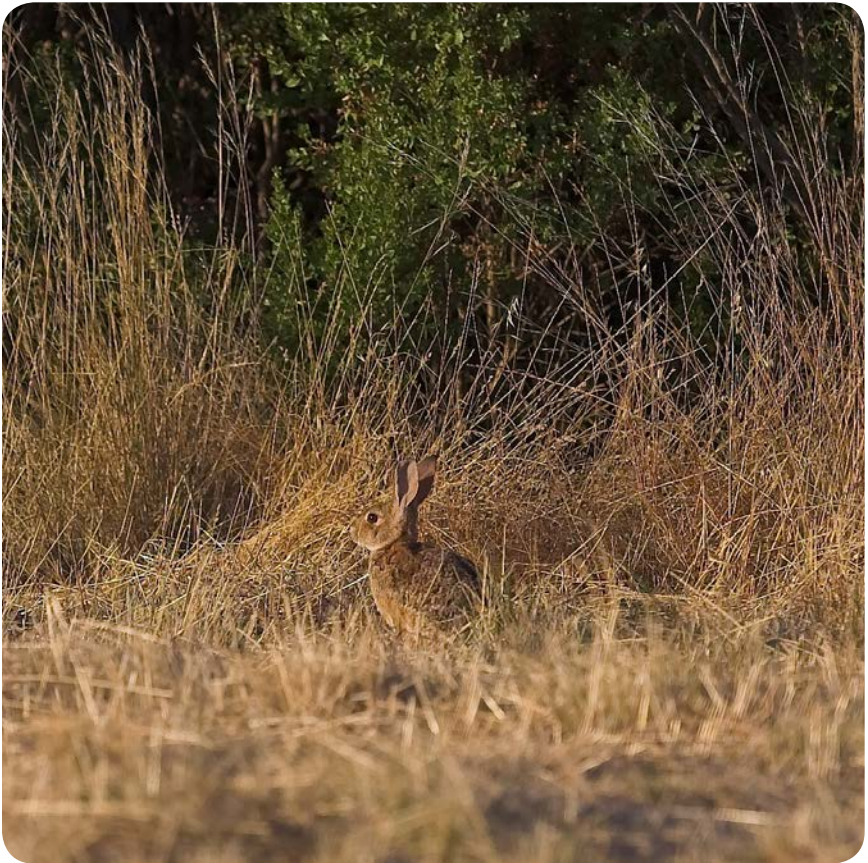

adaptation

A change in the body or behavior of a species, over a long time, resulting from a change in the environment.

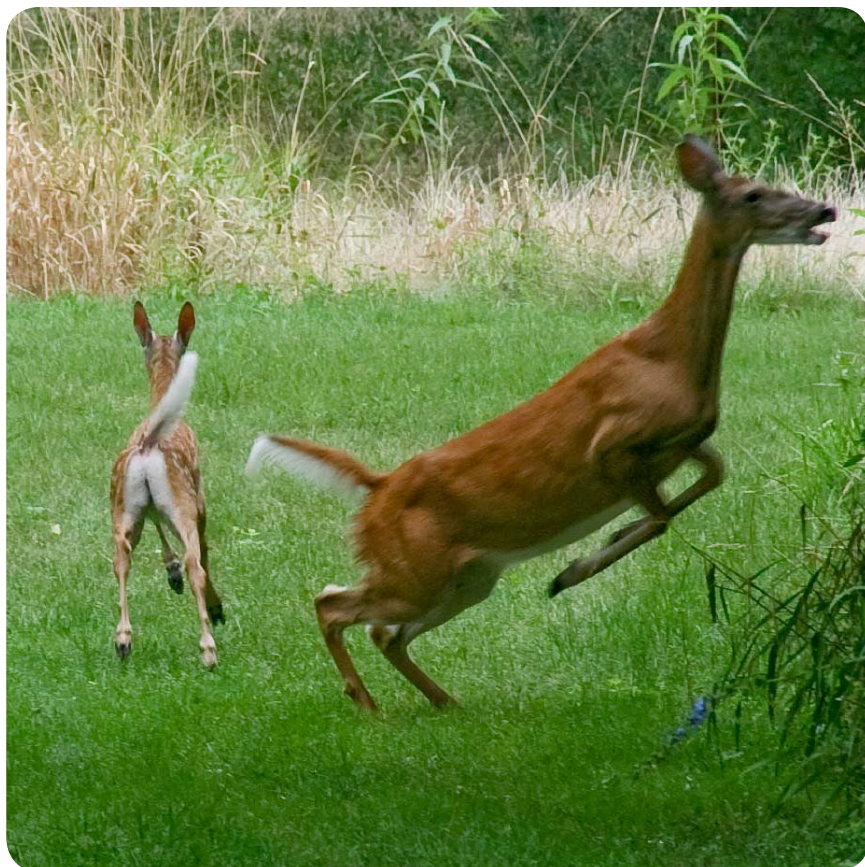

camouflage

Coloring that makes it possible for an animal to blend with its surroundings, making it harder to see.

trait

The way a living thing looks or acts.

Lesson 2

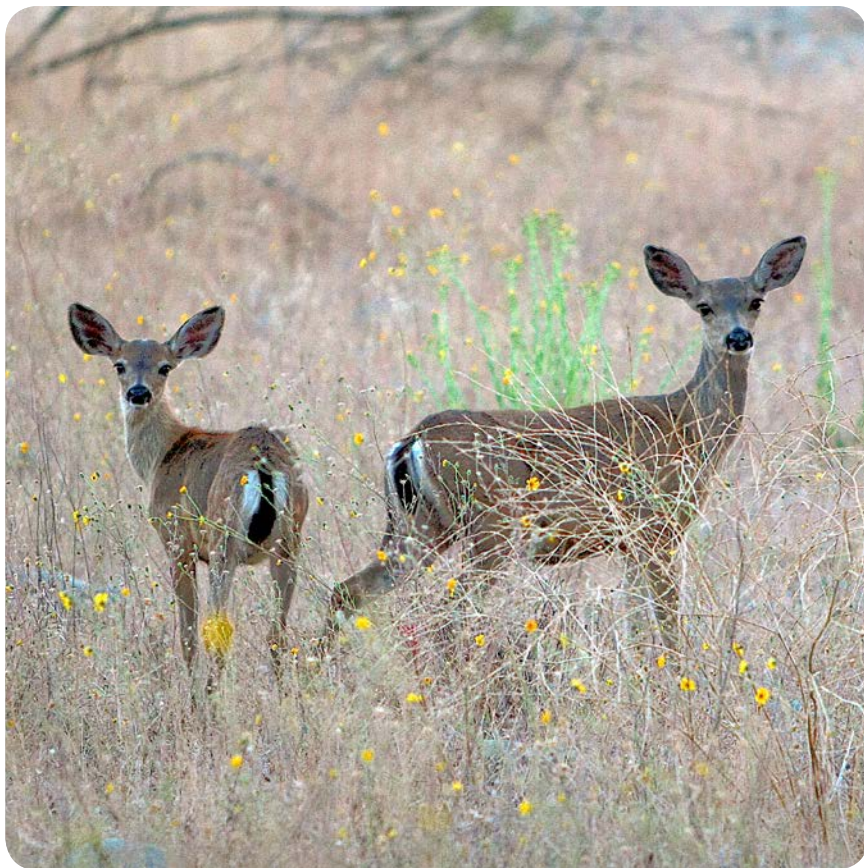

inherit

To receive from one's parents or ancestors.

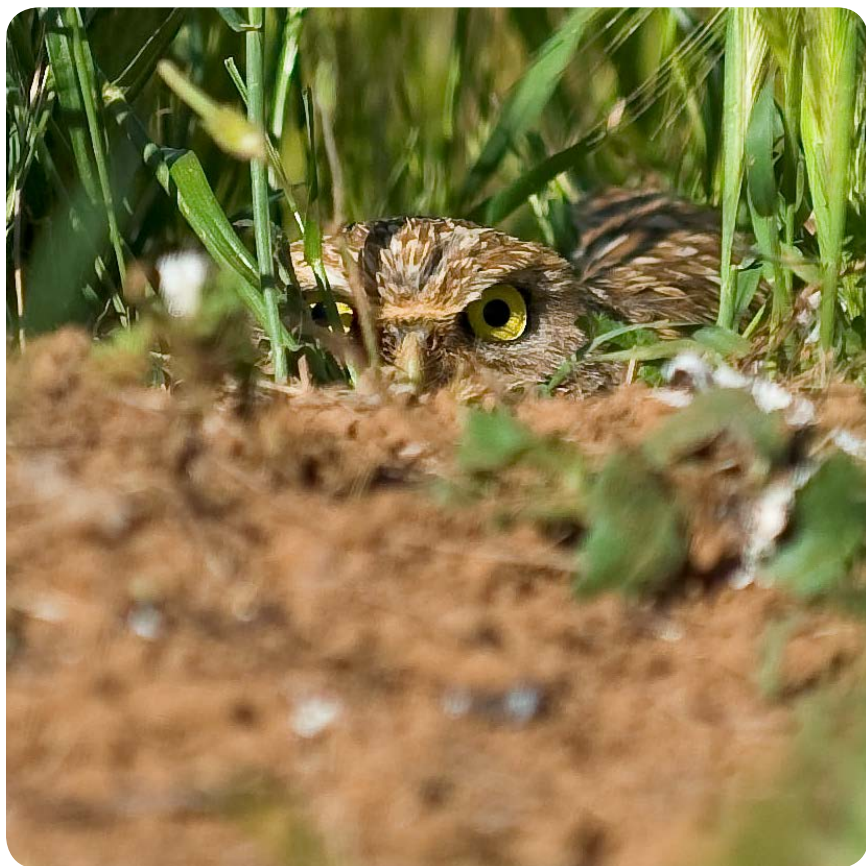

inherited trait

A trait that is passed down from parent to offspring.

survival

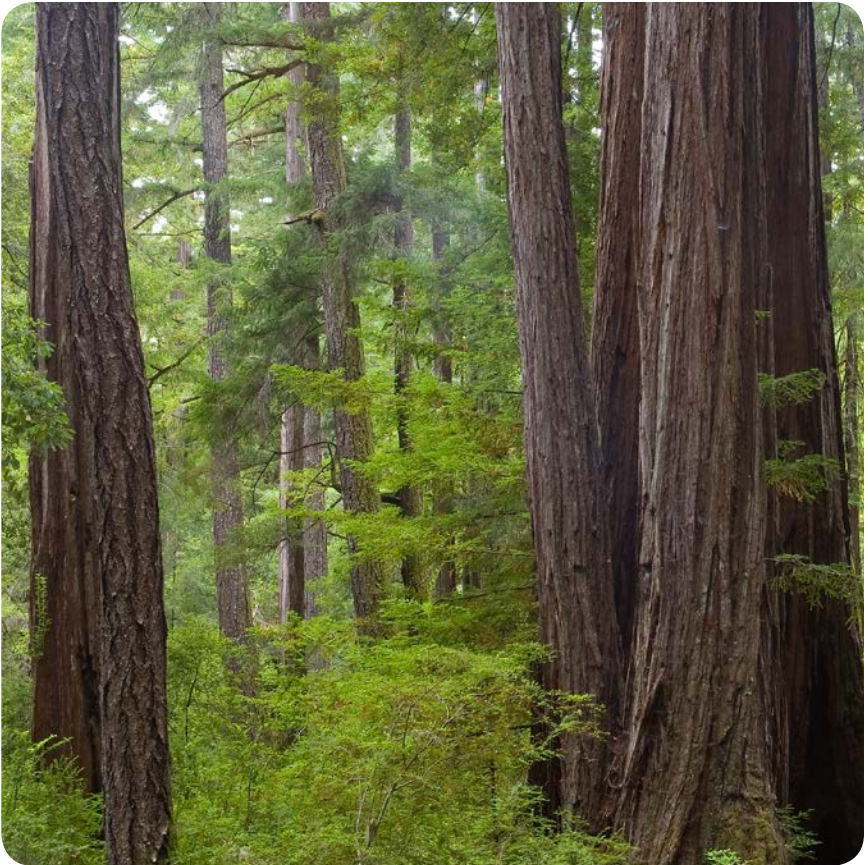

Staying alive.

Lesson 3

environment

The surroundings of a living thing.

molt

[verb] To shed skin, hair, or feathers before new growth.

reproduction

How plants and animals make new plants and animals like themselves.

Lesson 4

population

The number of plants, people, or other animals that live in a place.

species

Related organisms that look like each other and can reproduce.

variation

The differences in the ways living things look or act.

Lesson 5

individual

A single member of a species or group.

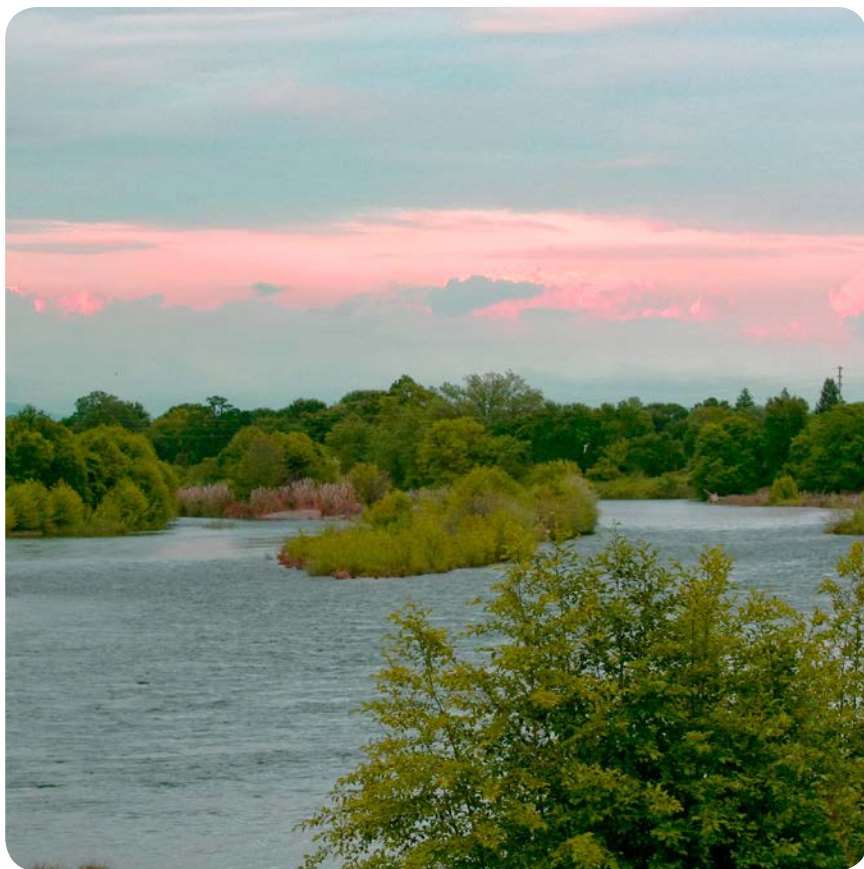

reject

To refuse or turn down.

riparian

Related to the banks of streams and rivers.
